# Mawson's Australian Spinco 'Southern Cross Gold' Closes A\$2.725M Private Placement

Vancouver, Canada — <u>Mawson Gold Limited</u> ("Mawson") or (the "Company") (TSX:MAW) (Frankfurt: MXR) (PINKSHEETS: MWSNF) is pleased to announce that further to its news release of <u>November 23, 2021</u>, its Australian spinout, Southern Cross Gold Pty Ltd ("Southern Cross"), has raised total gross proceeds of A\$2.725 million through the issuance of 17,031,250 ordinary shares (the "Shares") at an issue price of A\$0.16 (the "Issue Price") per Share (the "Private Placement").

Mr Ivan Fairhall, CEO states, "This placement brings the total raised in Mawson's stable since December to approximately C\$8m, and we are thrilled to be funded to drill at least 4 projects this year. Raising capital at the Southern Cross level, now valued at A\$17.7m (EV), shines a light on the quality of our Australia assets, with the spin out birthing a financially and operationally independent, dedicated capital markets vehicle – ideal conditions to grow value for shareholders. Mawson will redouble its focus on the exploration and predevelopment efforts in Sweden and Finland, underpinned by our Rajapalot gold-cobalt discovery, which already contains in excess 1Moz AuEq (inferred resource) and is also the European Union's 7<sup>th</sup> largest cobalt resource, with an ongoing 8 kilometre drill campaign during Q1 and Q2 2022."

Mr Michael Hudson, Executive Chairman of Mawson and MD-elect for Southern Cross comments, "We thank all new shareholders for their interest and support in this oversubscribed placement. The Victorian goldfields are a Tier 1 gold address, with significant historic pedigree. Victoria's recent reputation has been cemented by Kirkland Lake Gold's epizonal-style Fosterville gold mine, which is the highest-grade underground mine in the world and 10<sup>th</sup> highest producing gold mine in 2020. Southern Cross holds 3 of the 9 historic epizonal gold fields in Victoria and one of the best discoveries to be made in the modern renaissance of the area, with our most recent drill results including <u>3.0 metres @ 41.4 g/t gold and 12.0% antimony within 11.7m @ 12.4 g/t gold and 3.6 % antimony in the deepest hole drilled at Sunday Creek</u>. We look forward to advancing Southern Cross to an IPO on the ASX and creating further value for all shareholders."

Southern Cross is a private corporation incorporated in Australia which holds Mawson's interest in its Australian mineral portfolio (the "**Australian Projects**") including, the 100%-owned Sunday Creek project in Victoria and Mt Isa project in Queensland, the Redcastle and Whroo joint ventures in Victoria, Australia, and a strategic 10% holding in the Australian Securities Exchange ("**ASX**") listed Nagambie Resources Limited (ASX:NAG) ("**Nagambie**") which grants it a Right of First Refusal over a 3,300 square kilometre tenement package held by Nagambie in Victoria.

Southern Cross intends to use the net proceeds from the Private Placement for exploration purposes in Australia, including continued diamond drilling, and for working capital and general corporate purposes, including funding of the proposed initial public offering of Southern Cross (the "Southern Cross IPO") on the ASX. Mawson holds 93,750,000 ordinary shares of Southern Cross or 84.62% of Southern Cross' issued shares after closing of the Private Placement but prior to the proposed Southern Cross IPO on the ASX. Mawson will be further diluted following the Southern Cross IPO capital raising. The proposed Southern Cross IPO timetable and amounts to be raised and valuations are subject to change. ### **About Southern Cross Pty Ltd**

The new Southern Cross corporate branding embodies important characteristics of the new entity. The blue lettering acknowledges the state colour of Victoria as well as Mawson which incubated the business, and the gold colour recognizes the Victorian goldfields. In the name we sought to distinguish our Southern Hemisphere operations from our Nordic operations. The Southern Cross is a constellation also represented on the Australian flag which provides a strong cultural significance to all Australians. The main 7-pointed star represents the unity of the six states and the territories of the Commonwealth of Australia and the addition of a miner's pickaxe within the body of the star reflects the central place that mineral exploration has in Australia and, of course, to Southern Cross.
